

ETHOSIQ AND ADVANTEL NETWORKS ENTER STRATEGIC PARTNERSHIP

Houston, TX, August 14, 2018 – ethosIQ, a data collection and analytic solution provider, specializing in disparate data technology, is honored to announce its partnership with Advantel Networks, a premier technology solution provider.

ethosIQ devotes resources to collecting, correlating and normalizing disparate data, across multiple systems, in real time. ethosIQ provides clients with a single source of truth, or a full comprehensive view of their business processes. The veteran-owned company focuses on providing clients, and their customers, with the best possible customer experience. ethosIQ's culture focuses on quality interactions, continuous growth, improvement and innovation.

For over 30 years, Advantel Networks has been providing its customers with industry-leading technologies that make their businesses more efficient by addressing their pain points, strategic opportunities and critical business needs. ethosIQ carefully chooses partners to ensure seamless integration, robust functionality and exceptional cost of ownership.

“We are extremely excited to announce our partnership with Advantel Networks,” said Scott Walker, ethosIQ CEO. “Partnering with businesses that have this much experience, and place such a huge emphasis on customer experience is what ethosIQ is all about!”

“Advantel is honored to partner with ethosIQ,” said Mark Ritchie, President of Advantel Networks. “We focus on partnering with only the best-of-breed technology providers in the industry, and ethosIQ adds great value by enhancing our Contact Center reporting capabilities.”

The partnership of ethosIQ and Advantel Networks provides customers with world class IT and data analytic solutions, premier solution integrations and an incomparable customer experience.
